Lead Counterbalance Weights

What we can do:

- From prototype to production parts, ounces to tons ... Alchemy can offer you a broad range of possibilities for your ballast concerns.
- Hot pour available - our location, or we can come to your location.
- Some of the industries we cater to; Aircraft, Boom Truck, Door Manufacturers, Elevator, Material Handling, Motion Picture, Sailboat, Theatre to name a few.
- Our Processes include:
 - Cast Products
 - Die Cast Products
 - Extruded Products
 - Hot Poured Products
 - Rolled Products

The benefits:

- We can **reduce your counterweight size** and **maintain the required weight** when space is a concern.
- We can **maintain you current design** and make it **40% heavier than steel** or **60% heavier than cast iron**.
- **Free Up your Valuable Manufacturing Space** - We provide Full Manufacturing capabilities including engineering, designing, welding, container fabrication, finishing. Our counterweights are shipped to you ready for your final assembly.
- **Just In Time** deliveries saves you storage space and reduce your inventory levels.
- **We Ship Worldwide** - Let us take care of getting your orders to you.
